## WHAT'S UP ? MAGAZINE

Welcome to the New School Year - 2011/2012 !

### 2011 - Our school celebrates 80th anniversary

Everybody knows that knowledge is very important in life. We spend most of our time at school, we enjoy long breaks and interesting lessons. Pupils like school clubs where they can learn a lot of interesting things. We can use computers, the Internet, CD players and a video. We have nice, colourful books and we can visit our school library to borrow some books. Children aren't hungry because there are school canteen and a small shop in school.

However, we should remember that education was not always as easy to reach as nowadays. 80 years ago a small group of children started their education in Ogródzieniec. They didn't have any fashionable school equipment but they wanted to learn very much. Their parents and other people from our town helped them and they built this school. They realized that their children had to be well educated. Although classrooms were small and cold in those times, pupils were happy and they didn't complain.

Today we are grateful to the first builders of our school. They began a great history of education that continues up till now.

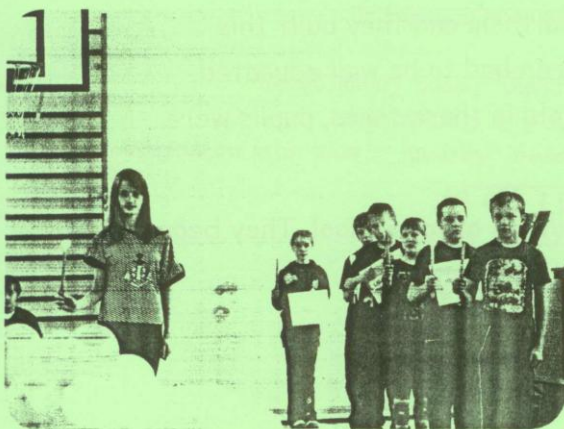

What's up at school ? What has already happened?

30<sup>th</sup> September - All the boys in our school, believe or not, they are COOL !

11<sup>th</sup> November - Independence Day

16<sup>th</sup> November - The Earth needs fresh and clean air. Class V a never forgets about it!

## 14<sup>th</sup> October - Teacher's Day

Are you a teacher? Yes?! So..... today is your day !

A true teacher is not someone who just teaches academic lessons to his or her students. The teacher is like a guide, who helps the students in each and every sphere of life, by giving the right advice. They are future makers.

### Famous Sayings About Teachers

- A good teacher is like a candle - it consumes itself to light the way for others.
- What the teacher is, is more important than what he teaches.
- Teaching is the profession that teaches all the other professions.
- The best teachers teach from the heart, not from the book.

We know that you always do your best to teach and help us. Today we want to thank you for everything you are doing !

For putting up with lots of noise  
When we are rowdy girls and boys,  
For planning lessons A to Z  
And listening when we disagree,  
Thanks for all you do at school  
To help make learning fun and cool!  
Happy Teacher's Day!

## 31st October , 1st November

Two dates, two countries, two cultures...

31<sup>st</sup> October - **Halloween** - The USA, Great Britain

Festival of ghosts and evils. People dress up as witches, ghosts and bats. They have parties.

They cut holes in pumpkins and make "Jack-o-lanterns".

Children visit their neighbours and ask for "treats". People decorate their houses and gardens. They are happy and look forward to the next Halloween day.

1<sup>st</sup> November - **All Saints Day** - Poland

Our past is our future. In Poland people usually travel to the places, where their relatives are buried. They go to the cemetery and clean the graves. Moreover, they decorate the graves with candles and bunches of flowers. On the All Saints Day, all families gather on the cemeteries. They pray and attend a mass together. The mass is celebrated for the salvation of the dead. They bring flowers and candles and lay them on the graves of the relatives. This is time to think about those, who are no longer with us. It is quite sad usually. People meet their families in their houses. They talk about those, who died. We remember people who always stay in our hearts.
