CLIL ZINTEGROWANE NAUCZANIE JĘZYKOWO-PRZEDMIOTOWE

Metoda CLIL (Content and Language Integrated Learning), promowana przez Komisję Europejską jako jedna z najbardziej efektywnych metod nauczania języka obcego.

Może to być nauczanie na podstawie problemów z prawdziwego życia, tematów z innych przedmiotów. Mogą to być tematy takie jak:

- „W gospodarstwie ekologicznym”
- „Co uprawia się na polu?”,
- „Która jest godzina?”.

Zależą one od wieku i poziomu ucznia. Kluczowa jest nauka słownictwa, które jest powiązane z tematami innych przedmiotów.
